Quickly create project schedules and Gantt charts with out the use of third party tools or scheduling programs. XL-EasyGantt Features: - Following Excel-Macro features are implemented: ✓ Data Import (Excel compatible, CSV, XML, Access, CSV and XML file based) ✓ User Interface ✓ Toolbar ✓ Cell, Row, Column, Grid, Book and Page formatting ✓ Timeline markers ✓ Multi-month graph ✓ Windows calculator ✓ VBA Macros ✓ Macro record ✓ Timezone mapping ✓ Custom cell references (via saving the reference in the schedule) ✓ Custom Formulas ✓ Automatic recalculation ✓ Worksheets and Worksheet filtering ✓ Multi-sheet templates ✓ Multi-sheet and multi-sheet filtering ✓ Sheet-to-sheet tracking ✓ Custom Worksheet filters XL-EasyGantt Limitation: XL-EasyGantt only works with Excel version 95/97. XL-EasyGantt is not a replacement of other Microsoft Project items. XL-EasyGantt works best on a standard installation of Excel. Scheduling: Create a project plan by using the regular Excel application on your desktop. After a project schedule is created, the data will be imported to XL-EasyGantt. The Project Plan is used to show which resource is working on what, which is created based on the project plan. When a new resource joins a project, it can be automatically imported to XL-EasyGantt, which speeds up the scheduling cycle. Project Calendar: You can use XL-EasyGantt to display the Gantt chart with timeline markers. Automatically use Excel's default calendar to display the project information. Work assignments: After a project plan is created, the data will be imported to XL-EasyGantt. Each resource will have his own task sheet. Based on the job description and resources on the list, you can assign a task to a person and track the progress of the project. Custom toolbars: You can add your favorite Excel macros to XL-EasyGantt via the toolbars, which are synchronized with the Excel program. Customising: XL-EasyGantt now allows you to customize the look of the program as well as adjust the preferences.
